PROFESSIONAL SUMMARY

Enthusiastic Computer Engineering graduate from Pulchowk Campus with a strong foundation in full-stack development and software architecture. Proven ability to deliver high-quality code through a professional internship at Nepal's leading fintech firm and several complex academic projects. Committed to continuous learning and solving real-world problems through technology.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C++, HTML/CSS

Frameworks & Libraries: Django, React.js, Spring Boot, OpenCV

Databases & Tools: PostgreSQL, SQLite, Git, Docker, REST APIs, Linux

WORK EXPERIENCE & PROJECTS

Software Engineer Intern Dec 2023 - Feb 2024

F1Soft International

- Collaborated with the backend team to optimize transaction processing modules for the eSewa ecosystem, improving response times by 15%.
- Assisted in the development of RESTful APIs using Java Spring Boot to support new feature rollouts in the mobile banking application.
- Participated in daily stand-ups and code reviews, ensuring adherence to internal coding standards and security protocols.
- Identified and resolved 20+ bugs within the staging environment, contributing to a stable production release.

Lead Developer - Local Market E-commerce Platform Jan 2023 - Sep 2023

Pulchowk Campus (Final Year Project)

- Developed a full-stack e-commerce solution tailored for local Nepalese artisans using React.js and Django Rest Framework.
- Implemented a secure payment gateway integration simulation and a real-time inventory management system.
- Optimized database queries in PostgreSQL, reducing page load times for product listings by 30%.
- Managed the project lifecycle using Git/GitHub and coordinated tasks among a team of three students.

Developer - Facial Recognition Attendance System Jun 2022 - Nov 2022

Academic Project

- Built an automated attendance tracking application using Python, OpenCV, and the dlib library.
- Achieved 94% accuracy in facial detection and recognition within a controlled classroom environment.
- Integrated an automated email reporting system that sends weekly attendance summaries to faculty members.
- Utilized SQLite for lightweight local storage of student records and attendance logs.

EDUCATION

Pulchowk Campus, Institute of Engineering (TU) Nov 2019 - Oct 2023

Bachelor of Engineering in Computer Engineering
