ACADEMIC BACKGROUND

Kathmandu University

Bachelor of Science in Computational Mathematics

Aug 2016 - Jul 2020

PROFESSIONAL PROFILE

Detail-oriented professional with a strong foundation in data visualization and business intelligence, eager to leverage analytical skills to drive data-informed decision-making in Nepal's evolving fintech sector.

PROFESSIONAL EXPERIENCE

Junior Data Analyst

Global IME Bank

Jun 2021 - Dec 2023

- Developed automated dashboards using Power BI to track daily branch performance, increasing reporting efficiency by 30%.
- Cleaned and processed large datasets from core banking systems to support quarterly risk assessments.
- Collaborated with the IT team to integrate customer feedback data into the centralized reporting portal.

Data Intern

Leapfrog Technology

Sep 2020 - May 2021

- Assisted in the design of SQL queries for internal project tracking systems.
- Created interactive visualization reports for stakeholders using Python libraries such as Matplotlib and Seaborn.
- Conducted data validation audits to ensure the integrity of client-facing analytics reports.
