PROFESSIONAL SUMMARY

Experienced Backend Engineer with over 5 years of professional experience in developing scalable server-side solutions. Proven track record in microservices architecture, database optimization, and cloud infrastructure management. Adept at leading system migrations and improving API performance within high-traffic fintech and health-tech environments.

TECHNICAL COMPETENCIES

Languages & Frameworks: Java, Go, Spring Boot, RESTful APIs, gRPC

Database & Infrastructure: PostgreSQL, Redis, Docker, Kubernetes, AWS

Tools & Practices: Git, CI/CD, System Architecture

PROFESSIONAL EXPERIENCE

Senior Backend Engineer

Mar 2021 - Present

Cotiviti Nepal

- Lead the migration of legacy monolithic payment processing modules to a distributed microservices architecture using Go and gRPC.
- Optimized PostgreSQL query performance, resulting in a 40% reduction in API response times for health analytics reporting.
- Mentored junior developers on best practices for RESTful API design and secure coding standards.
- Integrated automated CI/CD pipelines using Jenkins to reduce deployment cycles by 30%.

Backend Developer

Sep 2018 - Feb 2021

F1Soft International

- Developed core backend services for mobile banking applications using Java and Spring Boot.
- Managed high-concurrency transaction processing systems, ensuring 99.9% uptime during peak load periods.
- Collaborated with cross-functional teams to implement secure authentication protocols (OAuth2/JWT).
- Maintained and scaled internal data warehouses using Redis for caching frequently accessed user data.

EDUCATION

Pulchowk Campus

Aug 2014 - Jun 2018

Bachelor of Engineering in Computer Engineering
