Manish Karki

Senior Backend Engineer

Lalitpur, Nepal +977-9841234567 https://linkedin.com/in/manishkarki-backend
https://github.com/manishk-dev

PROFESSIONAL PROFILE

Results-oriented Backend Engineer with over 7 years of experience in architecting and maintaining scalable server-side applications. Specialist in API design, database optimization, and cloud infrastructure within the healthcare and fintech sectors in Nepal. Proven ability to lead technical teams and deliver high-performance solutions using Python and Node.js.

TECHNICAL SKILLS

Languages & Frameworks: Python, Django, Flask, Node.js, PHP, Laravel, SQL

Databases & Caching: PostgreSQL, MySQL, Redis, MongoDB

Infrastructure & DevOps: AWS (EC2, S3, RDS), Docker, Kubernetes, Jenkins, Git

Concepts: API Design, Microservices, ETL, Unit Testing, System Design

PROFESSIONAL EXPERIENCE

Senior Backend Engineer Aug 2021 - Present
Leapfrog Technology

- Lead the backend development of a large-scale health-tech platform, servicing over 50,000 active users daily.
- Architected and implemented a microservices architecture using Python/Django and RabbitMQ to decouple legacy monolithic components.
- Optimized PostgreSQL database performance by implementing indexing strategies and query tuning, resulting in a 35% reduction in API response times.
- Mentored a team of 4 junior developers through code reviews and technical workshops on system design and clean code principles.

Software Engineer (Backend) Feb 2018 - Jul 2021
Cotiviti Nepal

- Developed complex ETL pipelines to process large healthcare datasets, ensuring high data integrity and security standards.
- Collaborated with US-based product owners to translate business requirements into technical specifications for claims processing modules.
- Integrated third-party REST APIs and implemented OAuth2 authentication protocols for secure data exchange.
- Participated in the migration of on-premise services to AWS, utilizing EC2, S3, and RDS.

Junior Backend Developer Jan 2017 - Jan 2018
YoungInnovations

- Contributed to the development of open-data portals for local government bodies in Nepal using PHP and Laravel.
- Managed database schema migrations and maintained documentation for internal API endpoints.
- Assisted in front-end integration using Vue.js for administrative dashboards.

EDUCATION

Pulchowk Campus, Institute of Engineering Nov 2012 - Nov 2016

Bachelor in Computer Engineering in Computer Engineering
