PROFESSIONAL SUMMARY

Data Platform Architect with 13 years of experience building scalable data infrastructure, pipelines, and analytics platforms. Expert in leveraging distributed systems and cloud technologies to solve complex data challenges within the banking and technology sectors in Nepal.

CORE TECHNICAL COMPETENCIES

Languages & Frameworks: Python, SQL

Big Data & Cloud: Apache Spark, AWS, Snowflake, Kafka

Data Infrastructure: Data Warehousing, ETL Development, PostgreSQL

DevOps & Leadership: Docker, Kubernetes, Team Leadership, Agile Methodology

PROFESSIONAL EXPERIENCE

Lead Data Architect

Mar 2020 - Present

Nabil Bank

- Architected the bank's enterprise data warehouse and lakehouse strategy using cloud-native solutions.
- Led a team of 12 engineers to automate reporting pipelines, reducing month-end closing time by 40%.
- Implemented robust data governance frameworks ensuring compliance with Nepal Rastra Bank regulations.

Senior Data Engineer

Aug 2016 - Feb 2020

Cotiviti Nepal

- Designed and optimized large-scale ETL pipelines processing multi-terabyte datasets for healthcare analytics.
- Migrated legacy on-premise data processing clusters to cloud-based Apache Spark infrastructure.
- Mentored junior engineers on data modeling and performance tuning techniques.

Data Engineer

May 2013 - Jul 2016

Deerwalk Inc.

- Developed data ingestion workflows for diverse healthcare datasets, ensuring data integrity and quality.
- Contributed to the development of internal data visualization tools used by stakeholders in the US.

Database Administrator

Jun 2011 - Apr 2013

F1Soft International

- Managed production databases for high-traffic mobile banking applications.
- Executed database optimization and index strategies to support rapid transaction growth.

Software Developer Jul 2009 - May 2011

Leapfrog Technology

- Developed backend microservices for various client-facing applications.
- Collaborated with cross-functional teams to deliver feature releases in an Agile environment.

ACADEMIC QUALIFICATIONS

Pulchowk Campus Aug 2007 - Jun 2009

Master of Science in Information and Communication Engineering in Information Systems

Nepal College of Information Technology Sep 2003 - Jul 2007

Bachelor of Engineering in Computer Engineering in Computer Engineering
