TECHNICAL PROFICIENCY

Languages: Python, JavaScript, C++, SQL

Web Frameworks: Django, React.js, FastAPI

Developer Tools: Git, Docker, Linux, Postman

Databases: PostgreSQL, Firebase

EDUCATION

Institute of Engineering, Pulchowk Campus
Bachelor of Engineering in Computer Engineering
Nov 2019 - Jun 2024

St. Xavier's College
Higher Secondary (+2) in Science
Jul 2017 - Jun 2019

ABOUT ME

Final-year Computer Engineering student at Pulchowk Campus with a deep interest in backend development and cloud architecture. Proven ability to build functional prototypes through major academic projects and hackathons. Eager to apply technical skills in a professional software development environment in Nepal.

KEY PROJECTS

Lead Backend Developer
Smart Krishi - Major Academic Project
Feb 2023 - Aug 2023

- Designed and implemented a RESTful API using Django Rest Framework for a mobile application aimed at local farmers.
- Integrated an SMS-based alert system for weather updates and market prices using a local gateway.
- Optimized database queries in PostgreSQL, reducing data retrieval time by 30% for high-traffic endpoints.

Team Lead & Full Stack Developer
LOCUS Hackathon 2023 (Swasthya-Connect)
Jan 2023 - Jan 2023

- Led a 4-member team to build a web-based blood donation tracker within a 48-hour intensive coding period.
- Awarded 'Best Innovation in Healthcare' among 30+ competing teams from various engineering colleges.
- Built the frontend using React.js and managed the real-time notification system using Firebase.

LEADERSHIP & ACTIVITIES

Technical Lead
Robotics Club, Pulchowk Campus
Nov 2022 - Present

- Organized technical workshops on Arduino and Raspberry Pi for over 100 first-year engineering students.
- Coordinated the development of an autonomous line-following robot for the National Robotics Competition.
- Managed budget and inventory for club projects, ensuring timely procurement of electronic components.
