Siddhartha Bikram Thapa

Principal Platform Engineer

Lalitpur, Nepal +977-9801234567 https://linkedin.com/in/siddhartha-thapa-dev
https://github.com/sbthapa-nepal

PROFESSIONAL PROFILE

Strategic technical leader with over 12 years of experience in architecting scalable distributed systems and cloud infrastructure. Expert in designing high-availability platforms, CI/CD automation, and securing cloud environments for fintech and enterprise applications in the Nepal technology ecosystem.

CORE TECHNICAL COMPETENCIES

Infrastructure & Cloud: AWS, Kubernetes, Terraform, Docker, CI/CD Pipeline Design

Languages & Automation: Go, Python, Ansible, Linux Kernel Tuning

Observability & Strategy: Prometheus, Grafana, System Architecture, Cloud Security, Disaster Recovery

EMPLOYMENT HISTORY

Principal Platform Architect

Jun 2018 - Present

F1Soft International

- Lead the platform engineering division, overseeing infrastructure for digital payment ecosystems serving millions of users.
- Transitioned legacy monolithic deployments to a containerized microservices architecture using Kubernetes, reducing deployment time by 60%.
- Mentored a team of 15+ DevOps and SRE engineers to adopt Site Reliability Engineering principles.

Senior DevOps Engineer

Mar 2015 - May 2018

Leapfrog Technology

- Developed automated provisioning scripts using Terraform and Ansible for diverse client projects.
- Implemented robust monitoring and observability stacks using ELK and Prometheus/Grafana.
- Collaborated with cross-functional teams to streamline the software development lifecycle.

System Administrator

Jul 2012 - Feb 2015

CloudFactory Nepal

- Managed core Linux server infrastructure and internal enterprise networking.
- Optimized high-traffic web service performance through load balancing and caching strategies.

ADVISORY & CONSULTING

Cloud Infrastructure Advisor

Jan 2020 - Present

Independent Consultant

- Provide strategic advisory services to local tech startups on cloud migration strategies (AWS/Azure) and cost optimization.
- Design secure multi-region disaster recovery protocols for regional financial institutions.
- Advise on compliance and regulatory data sovereignty requirements in Nepal.

ACADEMIC BACKGROUND

Pulchowk Campus, Tribhuvan University Sep 2008 - Jun 2012

Bachelor of Engineering in Computer Engineering
